

PURELL® and PROVON® 2% CHG Water-Aided Surgical Scrub Method

DIRECTIONS FOR USE

Effective use of this product as a surgical scrub requires 5 mL per hand/arm

IF HANDS ARE VISIBLY SOILED, WASH HANDS FIRST WITH SOAP AND WATER.

STEP 1

- Remove debris from underneath fingernails using a disposable nail cleaner under running water

STEP 4

- Rinse hands and forearms thoroughly

STEP 2

- Wet hands and forearms with water
- Dispense 5 mL of product (6 actuations) into hands

STEP 5

- Dispense 5 mL of product (6 actuations) into hands
- Wash for an additional 3 minutes

STEP 3

- Scrub for 3 minutes
- Pay close attention to the nails, cuticles and skin between the fingers.

STEP 6

- Rinse thoroughly under running water
- Dry hands completely before applying sterile gloves

¹Healthcare personnel should keep natural fingernails no more than one-quarter inch (0.64 cm) long according to AORN standards.
